

# ***FANTASTION***

By Omar, Syamil, Adeeb

# ***PURPOSE***

to provide a simple, reliable platform where people can easily find, rent, or sell properties with confidence.

# ***WHAT INSPIRED US TO CREATE THE WEBSITE***

- We created this website to make real estate easier and more transparent. Our goal is to help people find the right property with confidence by providing trusted listings and useful information—all in one place.

# TOOLS

- Visual Studio Code [to use all the programming language]
- ChatGPT [search for information]
- Xampp [To run and test websites locally]

# TOOLS

- Visual Studio Code [to use all the programming language]
- ChatGPT [search for information]
- Xampp [To run and test websites locally]
- Paint.net [To edit images]

# PROGRAMMING LANGUAGE

-JAVA SCRIPT

-HTML

-CSS

-PHP

-SQL

# CONCLUSION

- We hope this website becomes a trusted place for people to find their ideal property and a key part of their real estate journey.

The background is white with abstract orange and black shapes. There are several orange dots of various sizes scattered across the page. Two large orange shapes are in the corners, one top-left and one bottom-right, both with black outlines. The text "THANK YOU" is centered in a bold, black, sans-serif font.

**THANK YOU**
